

> **Specialist workwear** and laundry service

“ Every employer shall ensure that suitable personal protective equipment is provided to his employees who may be exposed to a risk to their health or safety while at work except where and to the extent that such risk has been adequately controlled by other means which are equally or more effective ”

Regulation 4 of the Personal Protection Equipment at work regulations 1992

> Why phs Besafe?

At **phs Besafe** we understand that an organisations most precious asset is its staff. When your employees are kept protected and comfortable, not only will they be happy but your regulators and inspectors will be too.

The right workwear, properly maintained and laundered, provides the protection your employees need, whether it be from rain, cold, dark or hazardous conditions. Without the right maintenance in place, your workwear can become ineffective and non-compliant.

How phs Besafe can help:

phs Besafe provides a garment supply and laundering service for high visibility and PPE workwear for over 3,000 UK sites, helping ensure the safety and comfort of thousands of people.

From measuring and supply, to tracking and delivery, you can rest assured that your employees will always have clean, comfortable and compliant workwear whenever they need it.

Reliable Products

We're continually striving to maintain and exceed the high standards of service you would expect from your workwear supplier.

Developed for optimum functionality and durability, **phs** uses unique fabrics and design features to provide the very best in comfort, fit functionality and longevity for garments that need to perform in the most demanding of environments.

Reliable service

We provide nationwide coverage with fast and friendly local service and pride ourselves on being different from other providers. We sort and segregate all laundry by hand and individually inspect every garment for repairs. For added reassurance, our customers receive the benefit of a dedicated account manager, which will provide you with regular reporting

Unique laundry process

Our Unique laundry process is designed to take the best care of your workwear, respecting the fabric of the workwear and preserving the waterproof and Hi Viz properties of the garment, extending its life in the process.

> We take care of **everything**

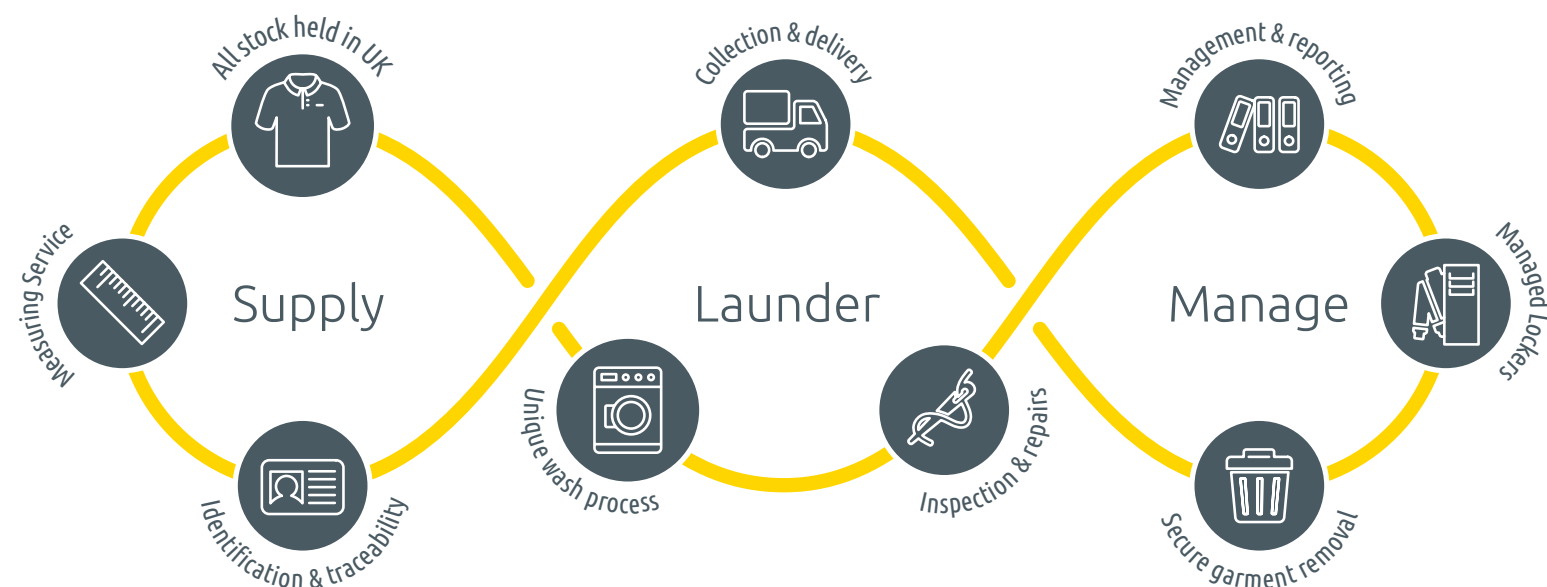

- High quality garments, always in stock and available for fast delivery
- Measuring service to ensure fit, comfort and protection
- All garments are barcoded to allow easy identification, tracking and reporting
- Fast and convenient delivery and collection including small laundry batches
- Unique laundry process to improve the garments lifespan
- Garments laundered with specially formulated detergent to ensure the removal of oils and grease
- Meticulous garment inspections and if necessary repairs
- Options for the delivery of garments directly to individual lockers
- Individual customer point of contact and access to web portal for invoices and service schedules
- Secure garment removal and disposal at end of life
- Advice on what garments are best suited for your environment

> Garment **packages**

We deliver to
9,170
delivery points
across the UK

> Managed workwear solutions **tailored to your requirements**

Full service rental

A cost effective, all inclusive garment rental and laundry service. The full rental service solution enables you to provide staff with high quality workwear and includes our unique laundering service, making it easier for you to offset your costs and control your budget.

Garment rental

Provides the budget benefits of garment rental, but without an inclusive laundry facility. If required, you can still take advantage of our laundry service but on a Clean and Maintain basis, as and when you need it.

Clean & maintain

Allows your employees and their garments to benefit from a managed laundry service even if you want to purchase garments outright.

Direct purchase

All our garments can be purchased outright without the laundry service, but if required the laundry can be used on a Clean and Maintain basis, as and when you need it.

There are **850,884 phs** Besafe garments in circulation across the UK

> phs Besafe unique laundry process

phs Besafe use a unique wash process that respects the fabric of the workwear, preserving the waterproof and high visibility properties of the garment, extending garment life.

To ensure garments are laundered on the correct wash cycle, all items that pass through our industrial workwear laundry services are hand sorted and segregated by their specialist properties, including flame retardant and high visibility.

Following segregation, each garment is laundered and dried at a low temperature to protect the fabric, reflective tape, zips and logos. We only use an organic detergent which is kind to the environment and to the skin, ensuring that laundered workwear items are returned odour-free and, crucially, irritant-free.

The wash process is designed to be tough on oil and grease, yet kind enough to prevent fading and garment damage.

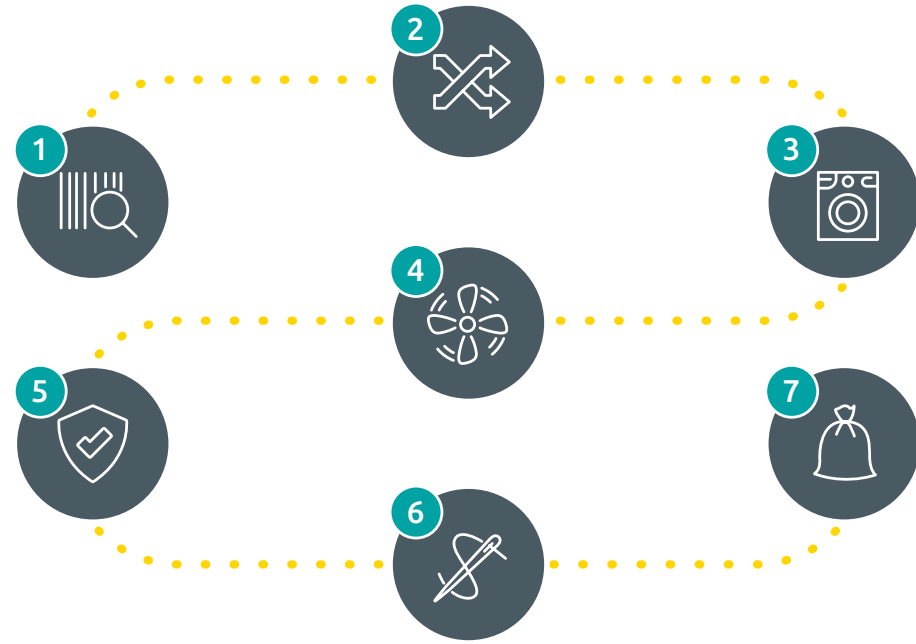

98.4%
customer satisfaction with our products and services

> The process

1. Workwear is scanned on receipt at the laundry
2. Garment types are segregated
3. High visibility Bright Gear and Flame Gear garments are laundered at 40 degrees in small drum machines
4. Garments are dried at low temperatures
5. Once laundered, garments are hand checked for any degregation or damage
6. Repairs are made where necessary, using the same material of manufacture, to form an invisible repair
7. Garments are scanned out and ready to be returned to your site (Turnaround time is 1 week)

> Additional Services

Branding and logos

phs Besafe offers personalisation of workwear with your corporate logo, helping promote your company identity and giving customers and staff the right impression of your brand. Logos can be heat sealed or embroidered onto most garments and are available in single or multiple colours.

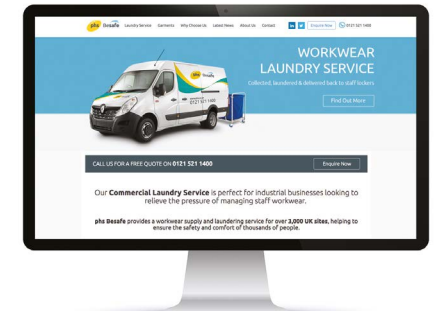

Workwear manpacks

phs Besafe packages together each employees required workwear items, making it easier for you to distribute garments to your employees.

Web portal

phs Besafe offers a tailored web portal for all customers. The portal provides the ability to receive live information relating to orders, invoices, garments reports and account information.

How phs web portal can help you

Wearers:

- Manage wearer details
- Remove existing wearers

Lockers

- View locker details
- Show locker availability

Garments

- View individual garment information (wearer name, size, last scanned and number of washes)
- View garment orders
- Check status of garments

Reports and documents

- Pull reports on wearer lists, wearer inventory, orders and scanned documents
- View invoices and contact information

We launder over
1.2million
 workwear garments every year

> Additional **Services** continued

Many uniforms could be used fraudulently if they fall into the wrong hands, providing criminals access to restricted sites for the purpose of theft, criminal damage or causing harm to individuals.

phs Besafe's garment destruction service can help protect your brand, clients, employees and members of the public by ensuring that all garments are destroyed when no longer required, keeping them out of the hands of fraudsters.

The Process

- Affix a red tag to the redundant garment(s)
- Place garments into a laundry bag
- Garments are collected as part of the regular service schedule
- Redundant garments are sorted and scanned to be removed from the database
- Redundant garments are laundered and then shredded at one of our UK destruction centres
